Palisades Community Center

The Palisades Community Center celebrates its tenth year in 1980. The structure is historic in nature, since it is more than 100 years old, and also functional.

During 1979 many of our residents used the facility. There were many childrens' birthday parties, a wedding reception was a first and a private art exhibit was well received by the community. The Board of Directors sponsored a third wine-cheese-art event, a community supper and a fifth annual christmas party for all our neighbors. Our senior citizens have enjoyed just having a place to get together and our girl scout troops have "done their thing".

Looking ahead to the New Year, there are many more possibilities. However, the Center belongs to and is the responsibility of each resident of our hamlet. The yearly

operating funds come from us. We receive no subsidy from outside sources. Please respond to our 1980 membership appeal as best you can. With ever-rising costs, we will need everyone's help to keep a good thing going.

You are invited to attend the the annual meeting of the Community Center on Sunday, January 22nd at 2 PM. Join us for a pleasant afternoon.

On November 30 The Playhouse Preservation Association, a non-profit organization, signed a contract with the former owner of the Tappan Zee Playhouse to purchase, restore and operate the Playhouse.

The new owners will run the Playhouse as a community based theatre alternating professional

productions with name talent and local productions.

The Playhouse will also be available for symphony performances, dance recitals, film programs, workshops and benefits.

Community Health Notes

The Holiday season in Palisades, as elsewhere, is festive and social and often is celebrated with a drink or two. However, if alcohol consumption becomes a problem, the practice needs attention and comment. Excessive drinking is steadily on the rise and alcoholism is a complex disease involving medical, psychological and social factors. The national press is alerted to this growing problem that is often related to marital problems, child abuse, decreased job productivity. Are we equally aware? Prevention programs have begun in many schools starting at the 6th grade level. Are our schools involved? How involved do we dare to become when we see an alcohol problem arising in our community? Can we afford not to be involved? Here are some resources that might be of help in increasing our awareness:
